

Vertera™

Teller cash recycler

Enhanced banknote authentication and fitness sorting

The optimization of cash management calls for specialist experience, resources and truly innovative technology. Across the world, Talaris' cash management solutions are trusted by thousands of organizations to ensure their cash is managed securely and efficiently while delivering the ultimate in productivity.

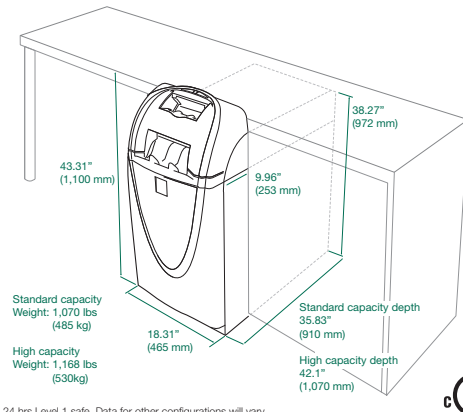

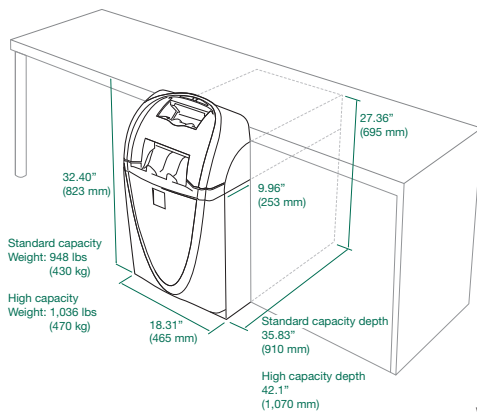

The Vertera cash recycler from Talaris represents a significant evolution in teller automation technology, enabling financial institutions to provide exceptional service while increasing customer engagement.

The Vertera delivers real benefit for businesses at multiple levels and provides a comprehensive and integrated solution to address the demands of the customer, the teller and improvements in branch efficiency.

- **Provides a fast, efficient service for clients** with fewer lines and a more personalized service that only a fully supported and attentive teller can provide
- **Reduces monotonous and repetitive tasks** as the Vertera provides a highly efficient and secure cash recycling solution

- **Advanced authentication and fitness sorting** capabilities, ensuring a robust first-line-of-defense for the branch
- **Optimizes branch business processes** with deployment flexibility designed into the solution, virtually eliminating start-of-day and end-of-day set up activities
- **Compact design** that provides the flexibility to fit seamlessly into the working environment
- **Fifth generation recycling technology** providing trusted reliability and performance
